Dear Sir:

This Supplemental Information Disclosure Statement is being submitted in connection with the above-identified application for patent. Applicant submits herewith publications of which he has become aware, which he believes may be material to the patentability of this application and in respect of which there may be a duty to disclose in accordance with 37 C.F.R. § 1.56.

While this Information Disclosure Statement may be "material" pursuant to 37 C.F.R. § 1.56, it is not intended to constitute an admission that any patent, publication or other information referred to herein is "prior art" for this invention unless specifically designated as such. In accordance with 37 C.F.R. § 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 C.F.R. § 1.56(a) exists.

The attached form, PTO-1449, provides a listing of the material required by 37 C.F.R. § 1.98(a)(1) which supplements the earlier Information Disclosure Statement. A copy of each of the items identified on the attached Form PTO-1449 is supplied herewith. These materials were cited first in a PCT Search report mailed June 6, 2003, so no fees are believed to apply. However, if there is a fee for the submission of this paper, please charge it to Deposit Account 09-0469 maintained in the name of the assignee, International Business Machines Corporation.

Respectfully submitted,
